ZERO SPACE

Unique one-button translation forward slide design about 10CM against the wall will fully open the massage chair greatly saving space.

FULL-BODY STRETCH

Especially for people who have been in the office or standing for a long time, full body stretching can effectively alleviate muscle fatigue, allowing the body to relax and feel comfortable.

ZERO-GRAVITY

The 135° and 118° zero-gravity angles that simulate spaceflight make the thighs and calves higher than the heart part of the body as if in a state of "weightlessness", making the spine free of pressure and achieving deep relaxation.

ENJOY A PRIVATE FOOT THERAPY SPA

Leg and foot combination care to care for your second "heart"

LEG ROLL SCRAPING

Quickly relieves leg soreness and swelling.

FOOT ROLLER MASSAGE

Three rows of rollers on the sole of the foot stimulate acupoints on the soles of the feet.

KNEE JOINT MAINTENANCE

Lengthen the calf to the knee.
