

LEG EXERCISER

SPECIFICATIONS :

1. GET MOVING:

- The Circulation Leg Exerciser walking machine is designed to promote movement and blood flow in the leg and feet area from the comfort of your chair.

2. CIRCULATING MOVEMENT:

- This passive, motorized walking machine gently circulates/moves the feet back and forth in a walking-like motion

3. IDEAL USE:

- Use the leg exercise equipment for seniors, those with a disability, or those who sit for an extended period of time.
- This leg exercise equipment helps keep your legs moving without placing extensive pressure on your joints

4. FIND YOUR SPEED:

- Find your ideal speed with the 5 different speed options.
- The remote control allows you to manage the speed without having to stop your exercise.
- The remote requires 2 AAA batteries (not included)
