

MAVERICK PICKLEBALL PADDLE 7410

SPECIFICATIONS :

- **Material:** Fiberglass
- **Premium Fiberglass Construction:** Made with high-quality fiberglass for a lightweight yet sturdy paddle. This construction ensures enhanced durability and a responsive feel, perfect for players looking to elevate their game without compromising on comfort.
- **Honeycomb Core:** The innovative honeycomb polymer core provides superior ball response and improved shock absorption. This design minimizes vibration and maximizes control, allowing for consistent performance and a smoother playing experience.
- **Edge Guard Protection:** Features a robust edge guard that helps prevent chipping and damage from accidental hits. This extra layer of protection enhances the paddle's longevity and maintains its sleek appearance even after extensive use.
- **Budget-Friendly:** Offers exceptional value for money without sacrificing quality. Designed specifically for beginners and intermediate players, this paddle delivers reliable performance at an affordable price, making it a great choice for those just starting out or looking to improve their skills.
- **Enhanced Grip:** The ergonomic handle is designed for comfort and stability, reducing hand fatigue during long matches. Its textured surface ensures a firm grip, allowing for better control and precision in every shot.
- **Balanced Performance:** Crafted to deliver a perfect blend of power and precision, making it suitable for a variety of playing styles. Whether you're aiming for aggressive shots or precise placements, this paddle helps you achieve the best results on the court.
