

PICKLE PADDLE ERASER

SPECIFICATIONS :

- Easy, Fast, & Effective: Proprietary blend of soft rubber quickly removes ball residue, dirt, and minor scrapes/scratches. A few swipes and leave your paddle looking new. Ergonomic size and shape.
- Works on all Carbon Pickleball Racquets: While we'd love for you to play with CRBN, rest assured knowing you can keep any carbon fiber faced paddle clean with ease.
- Note: The paddle eraser contains latex. If you have a latex allergy, please be mindful before ordering this product.
- Retain & Regain Spin: Small fibers of the plastic from the pickle ball accumulate on the surface of your paddle clogging grooves which diminishes spin and looks dirty. It's time to clean your paddle.
